About Us

With over 20 year of experience in the Higher Education industry - Education Malaysia's focuses on the current needs of students and bringing education in Malaysia to a masterclass level - Revolutionised and Recognised!

Education Malaysia does not only focuses on the students, but also with the education institutions around the world. We realized the need to build a strong relationship with the education experts to make sure that excellence is achieved.

With the interest of the students and future in mind, Education Malaysia is a one-stop hub where all education industries be it local and international, all under one roof. Students will be spoiled for choices from the many programmes / courses offered, scholarships and educational talks that will assist them in deciding their next steps.

Join us now and not just find your future but build a relationship and together we will achieve greater heights!
