HELP

THE ANALYTICS-DRIVEN ENTREPRENEURIAL UNIVERSITY

To prepare for the future, we are transforming to become the Analytics-Driven Entrepreneurial University. Our effort is recognised by MDEC which conferred on us the Premier Digital Tech University Award. We also received the MDEC Recognition for Certificate Training in data science for students.

To support this transformation, HELP invested RM25 million in the Business Analytics and Technology Innovation Centre (BATIC) which will be used to innovate and incubate techno-entrepreneurship. We are also planning the Phase 4.1 expansion of Subang 2 which will incorporate the signature Green-Digital Technology Campus. We are getting bigger, better, bolder in our innovative education investment.

Besides using analytics to drive our management and teaching, we are also building our research capability in analytics application. Part of the research grant from the Ministry of Education and internal funding is allocated for analytics research.

To complement the above development we have signed up with Bloomberg to set up the largest Bloomberg Finance Lab in Malaysia. This resource facility boosts the economics, business, financial and analytics training in our Faculty of Business, Economics and Accounting, the ELM Graduate School and the Faculty of Computing and Digital Technology.

In addition, we have internship collaboration with AI companies and techno-entrepreneurs.

During the last 33 years HELP has been exploring and experimenting with innovative ways to evolve our education philosophy, principles and practices. To achieve the 3 Cs (Character development, Competency in leadership, and Competency in a profession), we have designed the TEA culture to nurture the right skills and predisposition in our students.

ALL HELP STUDENTS ARE ELIGIBLE FOR THE FREE CERTIFICATE IN DATA AND BUSINESS ANALYTICS COURSE

TEA is the acronym for Thinking mind, Entrepreneurial attitude, Analytics skills: T is about robust thinking skills; E is about having a problem-solving mindset; A is about the skills in applying evidence-based management using data analytics. Each of these is supported by a programme of skills training and attitude development, viz the Critical Thinking Skills Programme, the Entrepreneurship-Leadership-Management Programme (ELM), and the Analytics Certificate Programme. This is the core education culture of HELP University as we prepare our students to be IR 4.0 future ready.

I especially enjoyed the process of completing my independent graduation project which gave me the best opportunity to meet with directors and managers of a number of MNCs, the Big Four, renowned local companies and independent parties. FIRST CLASS HONOURS FOR HELP BBUS STUDENTS AT LEADING UK UNIVERSITIES

“The HELP Bachelor of Business programme was a life-changing experience. Not only did I obtain a full scholarship to enter the University of the West of England in Bristol, UK and graduate with First Class Honours; the lecturers and the teaching standard at the Faculty of Business, Economics & Accounting were superlative.

They genuinely care for your academic and personal well-being. I loved all the subjects. Their advice: 'If you have any problems, come and talk to me' was reassuring and provided us the emotional stability to excel in our studies.”

Ginny Ngai Pik Gin

Both Ginny Ngai (left) and Adriana Ang (right) scored First Class Hons at the University of the West of England, Bristol and University College Birmingham respectively -- testimony to the strong foundation provided by the HELP Faculty of Business, Economics and Accounting.

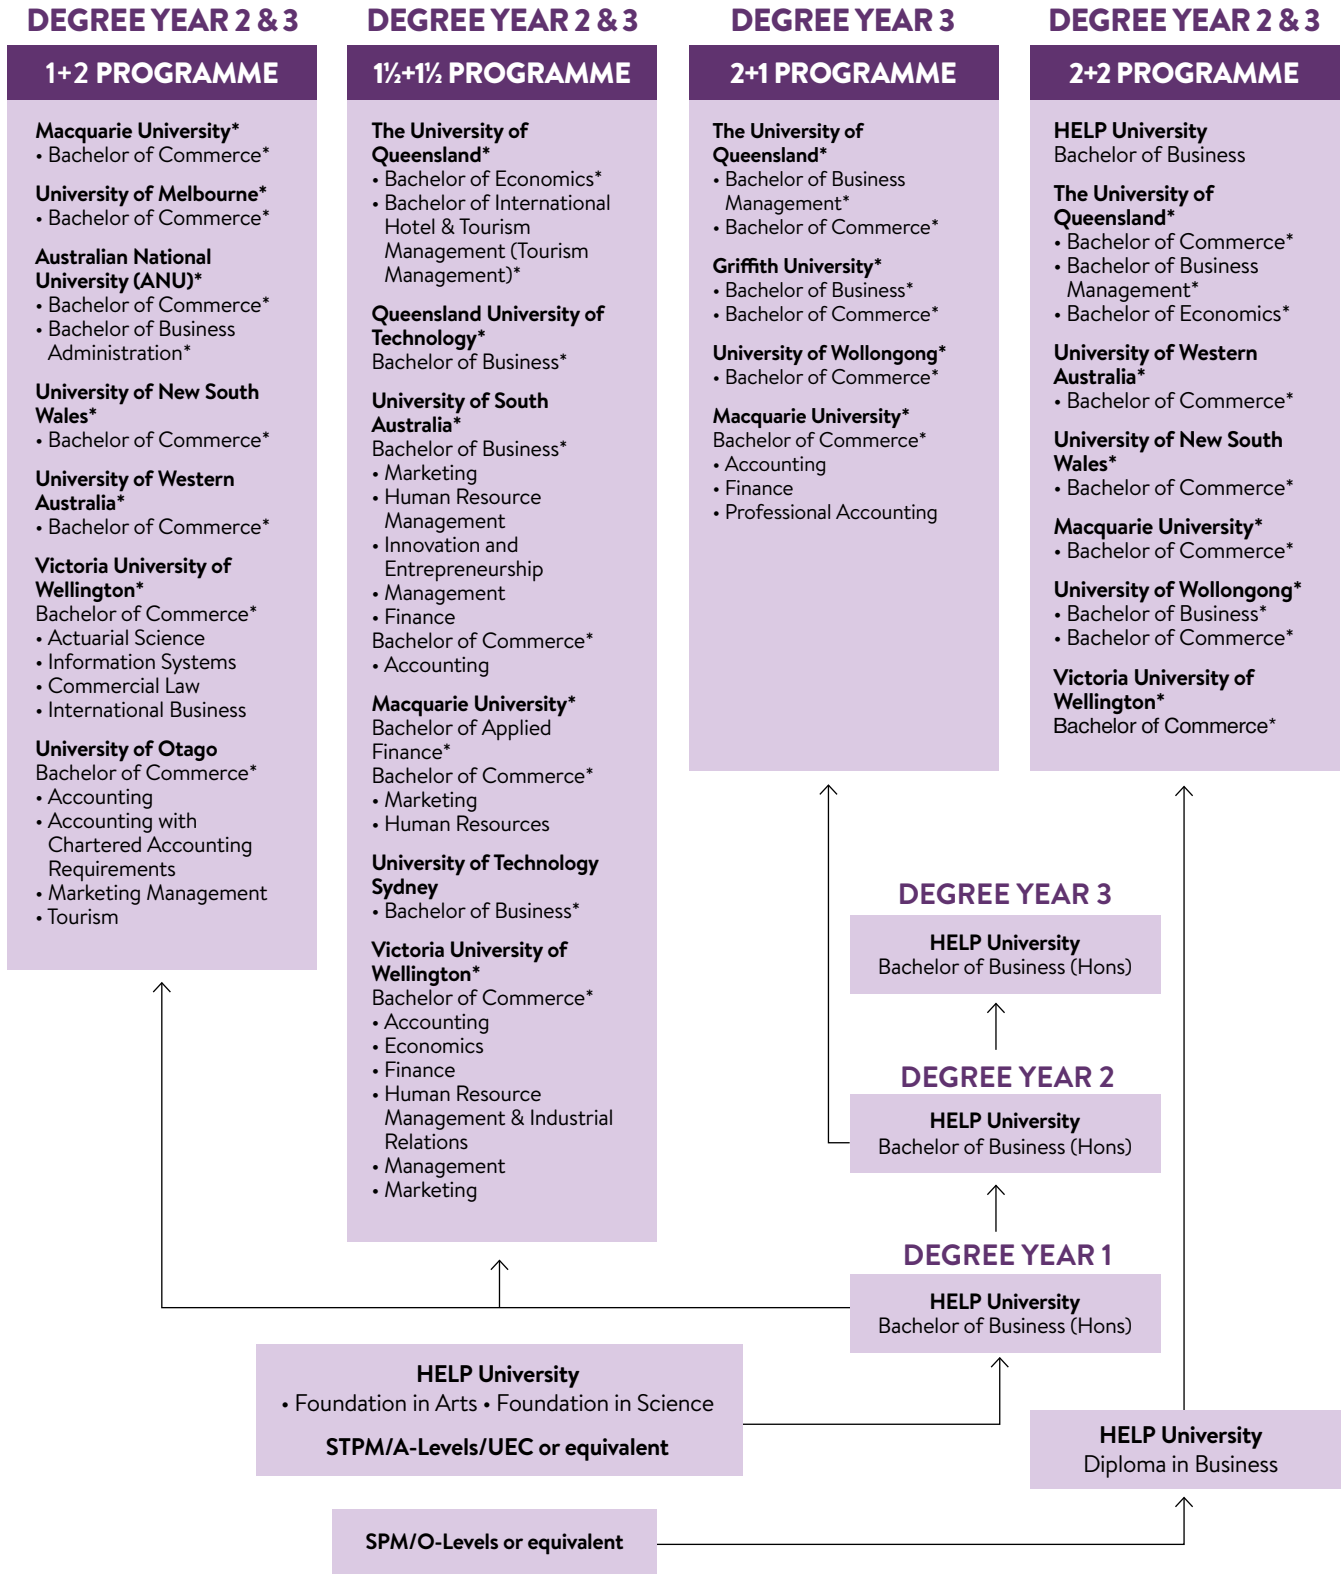

“The BBus programme at HELP prepared me well for studies at UCB because it honed my writing skills, and contributed to my success in the UCB programme which was completely assignment based. But it was the compulsory module on Business Research in HELP University that really made a difference for me. The drilling in methodology and accurate referencing helped me cope with the rigorous demands of my dissertation on Risk Management under the supervision of an expert in the field.”

COUNSELLING SERVICES

Counselling services are offered as a form of early intervention to assist students in various situations during their studies with the University. We believe we can help students when they:

- think they might have chosen the wrong field of study
- facing face with challenging or distress circumstances that may interfere with their studies
- require help to deal with various administrative issues e.g. appeals, feedbacks etc.
- require help on academic matters but do not know where to go to

We may refer students to Centre for Psychological and Counselling Services (CPCS) colleagues where needed.

MENTORING

Our academic team provides one-to-one guidance during office hours for students who require additional coaching and guidance in their studies.

PEER TUTORING

Peer tutors are outstanding students who aspire to help their fellow juniors to deal with subject-specific issues. Peer tutors are available for selective subjects and/or upon request.

STUDENT BUDDY PROGRAMME

This programme matches the new students with senior students studying in the Faculty with the intention to assist the new students to adapt into the HELP culture and to allow the junior and senior buddies to improve their listening and

conversation skills in an informal and fun way. This programme will last for a period of one semester. Each new student will be assigned to a senior student as his/her buddy during his/her first semester in the Faculty.

EMPLOYABILITY & CAREER DEVELOPMENT

We create and maintain collaboration with Industry partners. Our industry partners are invited to attend and to provide feedback at the Final Year Project presentation by our students. Many of our students were offered jobs on-the-spot after their presentation. Our industry partners include but not limited to KPMG, Deloitte, Frost & Sullivan, Amanah Raya, Nielsen, Wipro-Unza, OSK Group, Mediabrands, Huttons OneWorld, BDO, Leaderonomics, Warisan TC and many more.
