## Student Services

### Student and Career Counselling

At QIU, our counsellors are available to help students with academic and/or personal concerns. Students at QIU will be given personalised attention to assist them in meeting their academic needs.

### Assistance with Accommodation

QIU will help students with their accommodation arrangements, ensuring that they can enjoy a fun, enjoyable university experience.

### Mentorship Programmes

At QIU, students are not just taught academic programmes but are mentored to excel in their future careers and become responsible citizens who will contribute to the betterment of society.

## Hostel

## Accommodation

QIU's hostels provide accommodation for students who yearn for the experience of independent life in a secure environment. Nestled in the greenery of the Kinta Valley, our condominium units give students the option of staying in a single or twin-sharing room, with 4 or 6 occupants to a unit.

Transportation is provided to shuttle students between the residences and the city campus. Security checkpoints are installed outside each unit, as part of the 24-hour security surveillance system operated by QIU-appointed personnel.

- 24 Hours Security
- Free Internet & WIFI
- Outdoor Playground & Swimming Pool

# Bachelor of Special Needs Education (Honours)

JPT/BPP(MQA/PA6537)11/21

The Bachelor of Special Needs Education (Honours) programme is designed especially for students who are interested in working with children with special needs. The programme equips its graduates with the knowledge, competencies and attitudes that will enable them to work effectively in this field. A key feature of the programme is the acquisition of skills and competencies in practical contexts. Students are provided with 640 hours of practical work experience in real world environments where they work with special needs children as well as stakeholders and providers of Special Needs Education.

This programme equips graduates with:

- Expertise in evidence-based practices for working with young children at risk of / with disabilities, and their families;
- Skills for supporting and collaborating with families of children with special needs;
- Effective strategies for providing instruction to young children with disabilities;
- The skills of early intervention involving early identification of developmental delays and providing prompt interventions so that special needs issues among children are addressed before they become ingrained problems;
- Organisational and managerial competencies that will enable them to work in governmental organisations and NGOs that provide services for special needs children and their families.

## Career Prospects

- Educators in early childhood settings
- Educators in special needs schools
- Educator of special needs in the mainstream
- Developers of individualised education plans
- Various positions in related government agencies
- Operators of special needs facilities

## Why

## Choose QIU?

# 1

### Pushing the Envelope

The only private university that offers a Bachelor of Special Needs Education degree in the country, leading the effort to develop specialist practitioners in the field.

# 2

### Competency-based Assessment

Experiential learning that moves away from the traditional constraints of exams. We focus on project-based hands-on learning to build required skills and competencies.

# 3

### Practice-based Learning

A compulsory 640-hour work-based placement in real world environments where students gain experience working with special needs children.

# 4

### Community Engagement

Participation in projects and community services in collaboration with NGOs and community-based service providers for children with special needs.
