Success Story

ARTHUR LOH CHUAN XING

Foundation in Science - TAR UC (2017)

Bachelor of Computer Science (Hons) in Software Engineering (with Distinction) - TAR UC (2020)

TAR UC Merit Scholar

After SPM, I considered several tertiary education options before finally enrolling with TAR UC due to its reputation for providing industry-driven education.

My Foundation year equipped me with the knowledge, skills and network that prepared me for my eventual transition to the Bachelor Degree programme. The experience and challenges at TAR UC played a central role in forging my career as a Business Intelligence Analyst in a multinational company.

TAR UC Merit Scholar

The Foundation programme is the best stepping stone to undergraduate studies and there are many reasons why studying Foundation in TAR UC is a wise decision. The lecturers are very helpful in guiding us and they gave me the confidence to complete all my work and assignments. As great mentors, they motivate us to always aim higher in life. We were also given the opportunity to participate in various co-curricular activities which enriched our student life. Foundation helped me to discover my passion and steered me towards a degree in real estate management. I am currently attached with CBRE-WTW, a property management firm and I will always remember how it all started with the right foundation.
