CHAMPIONING 3H TRANSFORMATIVE LEARNING

At SEGi, we champion the 3H Transformative Learning to cultivate future-proof graduates. The education of the Head, the Heart and the Hands is a holistic learning approach in transforming future leaders:

HEAD
(Knowledge)

Providing the latest curriculum co-designed with international partner universities, local industry practitioners and experts, our proven teaching and learning process has seen over 130,000 graduates working in over 90 countries - ranging from successful entrepreneurs to high level executives and policymakers.

HEART
(Attitude)

Being civic-minded and nurturing our students' heart have always been a big part of our curriculum. Throughout the programme, students are encouraged to organise and participate in Corporate Social Responsibility (CSR) projects to use what they have learnt to give back to the community.

HANDS
(Skills)

Having the right technical skills will give our students an advantageous edge over their peers. We work hand-in-hand with industry partners to offer professional certifications so that our students have the right academic knowhow, and the relevant technical abilities to put what they have learnt into practice.

BUILDING TOMORROW'S ALLIED HEALTH PROFESSIONALS

Allied health covers a wide range of professions, which includes nurses, workplace safety and medical officers, technologists, environmental health officers and hospital administrators. Their duties may include but not limited to the identification, evaluation and prevention of injuries, disease and disorders.

Our learning modules are intensive and places a strong emphasis on procedural skills. The curriculum will guide students to evaluate patients' responses, evaluate work environment safety, ensure environmental health, perform medical laboratory tests make appropriate decisions about treatment and plans safety and health control measures.

In SEGi, students will enhance their learning experience by using the human patient simulators available in our well-equipped industrial hygiene and medical laboratories. Students will be exposed to hands-on sessions, ensuring that they are prepared and ready for the workplace upon graduation.

A PATHWAY FOR EVERYONE

**SPM / O-Level / APEL(A)
or equivalent qualifications**

Certificate
Certificate in Science

Credit transfer up to 30%

Diploma MC
Diploma in Nursing
Diploma in Medical Laboratory Technology
Diploma in Occupational Safety and Health
Diploma in Health Care

Credit Transfer

Your previous studies and qualifications may earn credits towards your diploma or degree. The award of credits is given on the basis of subject mapping and grades achieved. The maximum transferrable credits you may earn for a previous academic qualification could be 50% of the total credits at the Bachelor's degree. Work experience, MOOCs and other training certifications may earn you credit transfers of up to 30%. All credit transfers are subject to approval by the Senate or College Academic Board.

MC Micro-credential

We break it down to build you up. SEGi's Micro-credentials are unbundled from accredited qualifications, offering the modern learners a tempting, tantalising buffet-style learning model. While traditional diplomas or degrees are well-structured and solid, SEGi's Micro-credentials offer learners the choice of ultimate flexibility and customisation, empowering learners to select only what they want to consume, experience and learn. Through our innovative curriculum framework, these unbundled courses delivered through micro-credentials can then be easily re-bundled into accredited and recognised qualifications.

YOUR WORK EXPERIENCE COUNTS APEL(A)

Get admission into our SEGi programme through Accreditation of Prior Experiential Learning or APEL, which is a systematic process that involves the identification, documentation and assessment of prior experiential learning to determine the extent to which an individual has achieved the desired learning outcomes, for access to a programme of study and/or award of credits.

APEL provides an opportunity for individual with working experience but lack of formal academic qualifications to pursue their studies in Higher Education Institutions (HEIs). In general, knowledge obtained through formal education and working experience will be both assessed in APEL's assessment.

At the moment, APEL in Malaysia can only be used as entry requirement to HEIs for the following level of qualification:

- Level 3 (Certificate);
- Level 4 (Diploma);
- Level 6 (Bachelor's Degree); and
- Level 7 (Master's Degree)

Candidates are required to submit the application for APEL(A) certification to MQA directly.

Basic requirements to apply APEL(A):

- Only applicable to Malaysian
- Pass the Aptitude Test and Portfolio
- Minimum age requirements:
    - a) Certificate - 19 years of age
    - b) Diploma - 20 years of age
    - c) Bachelor's Degree - 21 years of age
    - d) Master's Degree - 30 years of age
    - e) Doctoral Degree - 35 years of age

PROGRAMME MATRIX

Programme	Awarding Institution	Entry Requirements	Campus
Diploma in Nursing KL (R2/723/4/0007) (06/22) (FA5279)	SEGi College	• SPM with pass in English and 5 credits including Bahasa Malaysia, Maths and Science • O-Level / UEC with pass in English and 5 credits including Maths and Science • Community Nurse / Assistant Nurse Certificate with minimum 5 years working experience	Kuala Lumpur
Diploma in Medical Laboratory Technology KL (R2/725/4/0049) (03/24) (A8535) SWK (R2/725/4/0028) (08/23) (A8542)		• SPM with pass in Bahasa Malaysia and English and 5 credits including Maths and Science • O-Level / UEC with pass in Bahasa Malaysia or English and 3 credits including Maths and 1 science • Related SKM Level 3 • Certificate related to Health Sciences with minimum CGPA 2.75 • MQA-APEL T4	Kuala Lumpur Sarawak

DIPLOMA IN NURSING

KL (R2/723/4/0007) (06/22) (FA5279)

SEGi College

The Diploma in Nursing is designed to prepare students to be registered nurses. This programme focuses both on the 'care' aspects of nursing as well as the 'science' of health care. Students will undergo a complete learning experience involving classroom work, activities at simulation wards, practical room, skills lab, and Human Patient Simulator lab, as well as earn real life experience during attachments with partner hospitals and community health clinics.

The programme is approved by the Ministry of Education and Malaysian Qualifications Agency. It is also accredited by the Ministry of Health & Malaysian Nursing Board. Students who pass the final examinations can register with the Malaysian Nursing Board.

Programme Modules

Year 1
- Health Science I (Anatomy and Physiology 1)
- Behavioural Sciences I (Psychology, Communication, Human and Public Relations)
- Nursing Science I (Principles and Practice of Nursing 1)
- Behavioural Sciences II (Sociology, Medico - Legal Aspects Professional Development)
- Clinical Practice I
- Health Science II (Anatomy and Physiology 2)
- Nursing Science II (Principles and Practice of Nursing 2)
- Nursing Science III (Infection and Inflammatory Diseases, Burns and Scalds, Fluids and Electrolytes)
- Health Science III (Pharmacology and Anaesthesia)
- Clinical Practice II
- Nursing Science IV (Cardiovascular and Hemopoietic)
- Clinical Practice III

Year 2
- Health Science IV (Microbiology and Parasitology)
- Nursing Science V (Respiratory System and Alimentary System)
- Nursing Science VI (Nervous System and Endocrine System)
- Growth Mindset **(NEW)** iR4.0 / Bahasa Kebangsaan A*
- Clinical Practice IV
- Nursing Science VII (Communicable Diseases and Dermatological conditions)
- Nursing Science VIII (Musculo Skeletal System and Genito Uninary System)
- Co-curriculum Management
- Clinical Practice V
- Nursing Science IX (Obstetrics and Gynaecology)
- Clinical Practice VI

Year 3
- Nursing Science X (Community Health Nursing, Gerontology, Environmental Health)
- Nursing Science XI (Principles of Management)
- Health System Research
- Falsafah dan Isu Semasa / Penghayatan Etika dan Peradaban (Local students) **(NEW)**
- Bahasa Melayu Komunikasi 1 (International students) **(NEW)**
- Clinical Practice VII
- Nursing Science XII (Mental Health Nursing)
- Nursing Science XIII (Paediatric Nursing)
- Nursing Science XIV (Ophthalmological and ENT Nursing)
- Industrial Revolution 4.0 in Malaysia **(NEW)** iR4.0
- Clinical Practice VIII
- Nursing Science XV (Emergency and Disaster Management)
- Clinical Practice VIIII

DIPLOMA IN
MEDICAL LABORATORY TECHNOLOGY

KL (R2/725/4/0049) (03/24) (A8535) • SWK (R2/725/4/0028) (08/23) (A8542)

SEGi College

Medical Laboratory Technologist (MLT) is one of the several professions listed under the allied health science (AHS) group. This profession is not well known among the general public because many of the tasks performed are done behind the scene, unlike the Nurses and Medical Assistant profession. Medical Laboratory Technologist is the backbone of the medical laboratory service as the MLT's are involved at all levels of the laboratory services from the pre-clinical, clinical right up to the post clinical stage. Medical Laboratory Technologist is an AHS professional who is involved in the process of diagnosing for treatment, rehabilitation and prevention through clinical laboratory tests.

MLT's main function is to run diagnostic tests in the laboratories of hospitals and health clinics to produce test results to help doctors make a diagnosis of a disease. This diagnostic test is conducted on a wide variety of specimens such as blood, urine, body fluids, feces (stool) and tissue samples, depending on the type of test that will be performed. MLTs are responsible for ensuring the suitability of the specimens obtained from patients for the test that is to be performed and the accurate results is given at the fastest possible time the medical officer to ensure effective treatment.

The programme includes a 28-week Medical Laboratory Placement in Year 3.

Programme Modules

Year 1
- Applied Digital Skills (NEW)
- Introduction to Medical Laboratory Technology PP
- Chemistry / Introduction to Pharmacology (NEW)
- Research Methodology
- Growth Mindset (NEW) iR4.0 / Bahasa Kebangsaan A*
- Anatomy and Physiology
- Biostatistics

DIPLOMA IN
OCCUPATIONAL SAFETY AND HEALTH

SJ (N/862/4/0077) (01/27) (MQA/PA15019) • KL (R/862/4/0025) (06/23) (FA1779) • SWK (N/862/4/0066) (03/25) (MQA/PA12197)

Managing and improving employee's safety, health and wellness across workplace and industry is important for improving legislative compliance, productivity, efficiency and morale of an organisation. The world is growing progressively more complex as we encounter new health risks with a growing list of occupational pollutant toxicants and occupational injuries. Occupational safety and health is an area concerned with protecting the safety, health and welfare of people engaged in work or employment. The aims of occupational safety and health programs include fostering safe and healthy work environment. Occupational safety and health may also protect co-workers, family members, employers, customers, and many others who might be affected by the workplace environment.

Occupational safety and health is the branched of public health that is concerned with the effects of occupational exposure factors on the health and well-being of people in workplace. There is a strong demand by the global health care world for a new breed of contemporary occupational safety and health practitioners. The Occupational Safety & health Act 1994 requires industries to employ a competent safety and health officer to resolve matters related to workplace safety and health. The dedicated group of safety and health officers are responsible for administering and enforcing statutory requirements, making available technical advice plus providing safety and health education.

Programme Modules

Year 1 (PP)
- General English
- Chemistry

DIPLOMA IN HEALTH CARE

SWK (R2/720/4/0095) (01/26) (A8569)

13

SEGi College

The Diploma in Health Care is a 3-year programme that provides comprehensive coverage of the health care management needs within the health care industry. The Diploma in Health Care aims to groom students with the appropriate health care management knowledge, personal skills and business leadership skills to enable them to contribute effectively to the management of health services and the planning and attainment of goals and objectives.

The programme encompasses both medical and management fields. The programme is built over four (4) major areas with a capstone applied practicum (clinical placement) during the last semester that will allow trainees to put their knowledge to practice in a community and hospital administrative setting. The 4 major areas are: The Management Process, Health Policy and Planning, Behavioural Science / Allied Science and Basic Science.

Programme Modules

Year 1
